Water Management Products at a Glance

PRODUCT	WHERE TO USE	FEATURES	BENEFITS
 <p>Revolution®</p> <p>REVOLUTION Unrivalled control of the rootzone environment. Apply a minimum of 4 consecutive monthly applications and continue at monthly intervals Whether a wet or dry year, Revolution works to help manage soil moisture distribution Pack sizes: 10 ltrs, 210 ltrs</p>	<p>Established greens, tees, and high maintenance turf areas as required</p>	<p>Internationally researched patented product. European Patent Number EP 174 0043</p> <p>Unique molecule creates a thin, more uniform film of moisture around soil particles</p> <p>Balances air to water ratios</p> <p>Drier, denser sward</p> <p>Helps to move water through the thatch</p> <p>Liquid or granular formulations</p>	<ul style="list-style-type: none"> • Safe on all soils, and established turf types • Used world-wide • A new class of surfactant • Allows excess water to naturally drain deeper • Helps deliver soil –moisture and soil targeted products to the site of required activity • Improved shoot density • Healthier plants, increased photosynthesis • Increased stress tolerance when most required • Improved growing conditions in the soil environment • All year round playability • Consistent playing conditions
 <p>Dispatch</p> <p>DISPATCH A programme surfactant Start applications when irrigation is required, then apply at weekly or monthly intervals, or as needed. Pack sizes: 25 ltrs, 210 ltrs</p>	<p>Fairways, approaches, Sports grounds and other large areas of maintained turf</p>	<p>Low application rate</p> <p>Sprayable</p> <p>Gets water off the surface and into the soil</p> <p>European Patent Number EP 0968155</p> <p>Increased nutrient availability</p> <p>Patented Synergy Technology</p> <p>Can be injected through the irrigation system.</p>	<ul style="list-style-type: none"> • Cost effective • Ease of application • Increased distribution uniformity and irrigation efficiency • Less run-off – ensures soil targeted products get to where they need to go. Helps to reduce off-site movement of applied products • Water and energy savings • Improved plant health and quality • Improved Nitrogen efficiency
 <p>PRIMER Select</p> <p>PRIMER SELECT The classic, unique Matrix Flow soil surfactant. Encourages uniform, high quality turf and does not scorch. Begin early spring followed by monthly applications. Pack sizes 10 ltr, 210 ltrs</p>	<p>Greens, tees and other highly maintained turf areas, ideal for new constructions and maintenance</p>	<p>Matrix Flow</p> <p>Safe</p> <p>Liquid and granular formulations</p>	<ul style="list-style-type: none"> • Uniform downward and lateral movement of water • Does not require immediate irrigation • Ease of application
 <p>AQUEDUCT</p> <p>AQUEDUCT Treatment for Dry Patch control. Applied weekly until the problem is corrected. Pack sizes 1 ltr, 10 ltrs</p>	<p>All areas</p>	<p>Gets water in quickly</p> <p>Helps to drain wet areas</p> <p>Helps to wet dry areas</p> <p>Non-Scorching</p> <p>Available in Dilute and Shoot</p>	<ul style="list-style-type: none"> • Faster repair and recovery • Less puddling • Reduced run off • Does not require immediate watering –in • Can easily treat specific areas with Applicator
 <p>FIFTY 90</p> <p>Fifty 90, 90 day long-term surfactant. Apply before Dry Patch starts. Pack sizes: 10 ltrs, 210 ltrs</p>	<p>Tees, Sportsfields</p>	<p>Last's 90 days</p> <p>Safe</p> <p>Economical</p>	<ul style="list-style-type: none"> • Less applications • Time, labour + machinery saving • Greater safety • 50 Litres per Hectare = 90 days performance
